Extract from a letter from Santa Croix. We had wandered for many hours through tangled forests of Tropical shrubs and trees, some of them emitting a most delicious and invigorating odor, when we suddenly came upon a large and well cultivated plantation, in the center of which were several buildings. En tering these we found them to be the "press houses," still, &c., where the sugar cane is crushed for the manufacture of St. Croix Rum. Over 100 Coolies were at work, and the smell from the forwell supplied with empty spirit barrels, and only a We were shown through the entire establishment, menting vats was very exhilerating and pleasant and learned that all the Rum here produced was shipped to Messrs, P. H. Drake & Co., New York, to be made into their celebrated PLANTATION BITTERS. The peculiar good effects of this Rum -which is the purest and best in the world-are well-known. Not a single case of Despapsia, Fever and Ague, Consumption, or any such discase can be found on this island, (except of invalids come here for their health, and they also almost always cured). Combined with Calisaya present wants, and only a light demand exists Bark, Cascarilla, and other important ingredients this Rum becomes Plantation Bitters; and surely no finer Tonic and general Family Remedy was ever seen.
